 - ✓ And More!
-

"Kelly, it took a full year, but the nutrition and lifestyle changes you suggested I make have been achieved. I saw you for nutritional guidance after my doctor diagnosed me with Type 2 diabetes.

I was 211 lbs., 55 years old, and A1C of 6.5. I'm now 175 lbs. and 5.7 A1C. The weight and the blood glucose levels steadily declined throughout the year as I followed the plan you laid out.

I've felt so much better this year than for the past few years. I have more energy, focus, and I'm definitely happier. Thank you for helping me."

- Joe Battisto, Skaneateles, NY

Our Disease Management Programs Work For Real People. Hundreds of people have achieved one or more of these results:

- ✓ Drastic decrease in A1C points.
- ✓ Total and LDL Cholesterol lowered by 20+ points.
