

IS NUTRITION HINDERING PERFORMANCE?

Proven programs to conquer your athletic goals.

Simple step-by-step programs • Know you're doing it right • Proven results

Is Performance-Enhancing Nutrition Confusing For Your Athletes?

- ✓ Do they struggle to properly time meals and snacks?
- ✓ Do they wonder what types of protein to eat?
- ✓ What about hydration? Do they drink enough? Do they know about hydrating food choices?
- ✓ Do they worry about enhancing performance if they're vegan or vegetarian?
- ✓ Are athletes confused about nutritional requirements?
- ✓ Do they need to increase energy, improve strength or drive endurance?

"I've been an athlete all my life. In recent years, I've been looking for a way to get more out of myself. I wanted to take my performance to the next level.

The nutrition advice and guidance I got from Kelly has transformed the way I fuel my body and I'm seeing myself improve in ways I never thought possible. I'm training harder and recovering more quickly."

"Kelly Springer works with our fitness clients in both workshop & one-on-one formats, and she is both knowledgeable and approachable. We love that her paradigm is "eat real food" and she tailors what she presents to each client's preferences and needs.

She is realistic, positive, and incredibly informative. Our clients feel safe with her, and we know that there is no hype, trends, or fads presented to them that might undermine their goals. We greatly respect the high level of excellence and professionalism that she brings to everything she does."
